

Wrapping Machine

MODEL: SWM0830

1. Stable Operation With Aluminum Roller

With aluminum rollers are used for the stretching device, less wear off is expected. Cylindrical rollers stretch the film properly and evenly, help to make high quality wrapped silage effectively.

2.Auto-Stop Wrapping System

When wrapping time reaches a set value, the auto-stop system works to stop table rotation automatically. Wrapping number can be set in 2/4/6 layers with pin insertion.
